## ***REASONS FOR ALLOWANCE***

The following is an Examiner's Statement of Reasons for Allowance:

The claims are allowable over the prior art for at least the reason that the prior art fails to reasonably teach or suggest measuring the response of the sample to reflected light from a broad band wavelength source by analyzing the change in either magnitude or phase of the light induced by reflection off the surface of the sample and generating a plurality of second output signals corresponding to different wavelengths; and determining the energy and dose of the implant used to create the shallow junction using an algorithm which simultaneously regresses data corresponding to a combination of both the first and second output signals as set forth in the claimed combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
